

Welcome to our new Gloves OEM Service!

Looking for Cranberry, Kimberley Clark, Hartalega, but didn't get the allocation anywhere? Here's the solution to make your brand by the factory, which produces most of the industry's top brand names.

Most of the glove allocations will be full by next year, and buyers are still attracted to all the best offers in the street market running by mediators who are incapable of getting products.

We are pleased to introduce a new OEM Brand allocation, a fully certified **FDA 510K** and **CE** that satisfies medical requirements. Though it's a new brand in the market, it performs equal to top brand quality. We can also help you create and design your gloves based on your specifications.

Production Capacity: Up to **500 MILLION A MONTH.**

Our OEM glove manufacturers have a strong reputation as a high-quality latex and nitrile OEM glove production in the industry and providing most of the top global brands and US brands like Kimberly Clark, Cranberry, and MedPride, etc.

They have grown a global business network, including the USA, Europe, Latin America, Middle East, and Australia, mainly for the medical, dental, high technology, food and services, household, utilities, and industrial segments currently distributed in more than 60 countries.

The factory is **GMP, ISO 9001, ISO 13485, FDA certified**, and the products conform to the **ASTM and EN standards and are certified with the FDA 510k and CE**. All the certificates will be provided with your products to export to the USA and other major countries.

## **WHY CHOOSE MCKINLEY'S OEM SERVICE?**

### **1. No More Waiting**

The simple process & the contract can be closed in a week.

### **2. Customization**
